

(Annex A)

Networking opportunities

POLYSEMi offers all interested parties the opportunity to meet and network with colleagues from the public sector, the business community and academia. All our events allow POLYSEMi stakeholders to network with other professionals in the public or private sector. In order to implement the POLYSEMi network for the upcoming years and host meetings and events, you can register your interest below.

The POLYSEMi network will form a group of members working together to identify the areas that will support the professional and personal development of tomorrow's POLYSEMi capitalization activities. The POLYSEMi network will organize events of particular interest for members both in Greece and in Italy.

Scopes and objectives

- **Connect** – to offer a platform through which POLYSEMi stakeholders working in the public or private sector are interconnected or interested in POLYSEMi's achievements and can promote and expand their professional environments and peer networks.
- **Grow** – To catalyze, build and promote development opportunities for stakeholders engaged with POLYSEMi results.
- **Guide** – To provide their respective professionals with an opportunity to create public value and develop their leadership skills outside the workplace.

Event programme

Key activities planned by the group include the final POLYSEMi conference and various other opportunities for networking and socialization. All events are advertised to all eligible members through the POLYSEMi portal.
