“Polysemi” Literary Park – Registration to a Network that Promotes, Supports and Implements the Activities of the Park

NOTICE

The Interreg 2014-2020 “Polysemi” Program (i.e. the “*POLYSEMI - Park of Literary Travels in Greece and Magna Graecia*” cross-border cooperation project developed under the Interreg VA Greece – Italy 2014-2020 Program) foresees the creation of a network that promotes, supports and implements the activities of the "Polysemi" literary park (henceforth "*The Park*").

In compliance with the provisions of the above-mentioned project, it is important to provide conditions and tools aimed at fostering an active collaboration between the partners of the project itself and public as well as private bodies wishing to work synergistically in pursuit of common objectives that are consistent with the general purposes of the Park.

To this end, the possibility of joining the aforementioned Park network has been provided by filling in a form on the Polysemi portal (<https://polysemi.di.ionio.gr/index.php/it/7139-2/>).

Registration is possible for all public and private bodies interested in being part of the “*Polysemi Network*”, as nodes of the same network, in order to connect subjects, resources, skills and projects within a single network, to encourage sharing and synergies between these institutions and the Polysemi Park in line with the general purposes of the Park (available on the aforementioned portal).

Public as well as private bodies must be compatible with the institutional purposes of the Polysemi Park both in terms of legal nature and of the activity and purposes being carried out (which are non-profit).
